CORPORATE DEFINITION

Montreal Group Inc. is a Canadian engineering, project delivery, and strategic infrastructure company specializing in the integration of international expertise, advanced technologies, and local execution capabilities to deliver sustainable infrastructure and industrial solutions.

PRESIDENT'S MESSAGE

Engineering the Future Through Partnership

Infrastructure is more than concrete, steel, and pipelines.

It is the foundation of economic growth, social development, and the well-being of communities.

At Montréal Group, we believe successful infrastructure projects are built on three essential pillars:

Technical Excellence.

Strategic Partnerships.

Responsible Project Delivery.

Our mission is to bridge Canadian engineering practices with international expertise, creating practical and sustainable solutions that meet the needs of governments, utilities, and industrial organizations.

Rather than attempting to perform every discipline ourselves, we bring together the right specialists, technologies, manufacturers, and local partners to deliver integrated engineering solutions tailored to each project's objectives.

INFO@MONTREALGROUP.
CA

+1-514-806-4987

This collaborative approach allows Montréal Group to remain agile, technically strong, and focused on delivering value throughout the entire project lifecycle.

As we continue to expand internationally, our commitment remains unchanged:

- Deliver engineering excellence.
- Build trusted relationships.
- Support sustainable development.
- Create lasting value for our clients and communities.

We appreciate your confidence in Montréal Group and look forward to building the future together.

Rabeia Alwahishi

President & Founder

Montréal Group Inc.

Who We Are

Engineering Excellence Through Strategic Collaboration

Montréal Group Inc. is a Canadian engineering, project delivery, and strategic infrastructure company committed to supporting governments, public utilities, industrial organizations, and private-sector clients in the successful development and delivery of complex engineering projects.

Rather than operating as a conventional contractor, Montréal Group serves as an **engineering integrator**, bringing together Canadian project management standards, international technical expertise, specialized technology providers, manufacturers, and trusted local execution partners to deliver comprehensive and sustainable project solutions.

Our multidisciplinary business model enables us to assemble project-specific teams tailored to the unique technical, operational, and commercial requirements of each assignment. This flexible approach allows us to

INFO@MONTREALGROUP.
CA

+1-514-806-4987

respond efficiently to projects of varying complexity while ensuring our clients benefit from the most appropriate expertise, advanced technologies, and internationally recognized engineering practices.

Corporate Memberships

Montréal Group is a member of the **Chamber of Commerce of Metropolitan Montréal (CCMM)**, demonstrating its commitment to the Canadian business community and professional development.

Our Business Philosophy

We believe that successful infrastructure projects are built on more than engineering expertise. They require collaboration, integrity, effective leadership, and a clear understanding of each client's objectives.

Our philosophy is founded on five guiding principles:

- Deliver practical engineering solutions that create long-term value.
- Build trusted partnerships through transparency and accountability.
- Integrate global expertise with local knowledge and execution capabilities.
- Maintain the highest standards of quality, safety, and professional ethics.
- Support sustainable infrastructure that benefits communities and future generations.

Our Delivery Model

Montréal Group delivers projects through an integrated project delivery approach that combines technical excellence with strategic coordination.

Depending on project requirements, we collaborate with qualified engineering consultants, independent specialists, technology providers, manufacturers, procurement partners, and local construction companies to assemble the most effective project team.

This collaborative delivery model enables Montréal Group to provide:

- Engineering Consultancy
- Technical Advisory Services
- Project Engineering
- Procurement Support
- Project Management

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Construction Management
- Commissioning Support
- Owner's Engineering Services

By integrating the right expertise at every stage of the project lifecycle, Montréal Group provides clients with reliable, efficient, and scalable engineering solutions while maintaining flexibility, technical quality, and responsible project delivery.

CORPORATE OVERVIEW

Building Sustainable Infrastructure Through Global Expertise

Montréal Group Inc. is a Canadian engineering, project delivery, and business development company headquartered in Saint-Hubert, Quebec, Canada.

The company operates with a multidisciplinary business model that combines Canadian project management practices with international engineering expertise and strategic partnerships. Montréal Group supports clients in the development and delivery of infrastructure, industrial, energy, and water projects by integrating engineering specialists, technology providers, manufacturers, and local execution partners.

Rather than functioning solely as a traditional contractor, Montréal Group acts as an engineering integrator—bringing together the right expertise, technologies, and resources to successfully deliver complex projects in diverse environments.

INFO@MONTREALGROUP.
CA

+1-514-806-4987

The company is committed to creating long-term value for clients through innovation, quality, transparency, and sustainable engineering solutions.

Headquartered in Montreal's metropolitan region, Montreal Group benefits from one of North America's leading engineering, aerospace, and technology ecosystems, enabling the company to collaborate with world-class experts, institutions, and industrial partners.

Vision

Our Vision

INFO@MONTREALGROUP.
CA

+1-514-806-4987

To become a trusted Canadian engineering and project delivery company recognized for connecting global expertise with sustainable infrastructure development across North America, Africa, the Middle East, and emerging international markets.

Our Mission

To deliver innovative engineering and infrastructure solutions by integrating world-class technical expertise, strategic partnerships, and effective project management while maintaining the highest standards of integrity, quality, safety, and environmental responsibility.

Our Purpose

To support governments, industries, and communities in developing resilient infrastructure that improves quality of life and creates long-term economic value.

INFO@MONTREALGROUP.
CA

+1-514-806-4987

Our Core Values

Integrity

We conduct business ethically, transparently, and with accountability in every decision.

Excellence

We pursue the highest standards of quality through continuous improvement and professional expertise.

Innovation

We embrace modern engineering practices and emerging technologies to solve complex challenges.

Collaboration

We believe strong partnerships create better solutions and lasting success.

Sustainability

We support environmentally responsible infrastructure that benefits future generations.

Safety

We prioritize the health, safety, and well-being of our people, partners, clients, and communities.

OUR CAPABILITIES

DELIVERING ENGINEERING EXCELLENCE THROUGH STRATEGIC PARTNERSHIPS

Montréal Group Inc. provides engineering, infrastructure, procurement, and project delivery services by integrating international expertise with local execution capabilities.

Our multidisciplinary approach enables us to support clients throughout the complete project lifecycle—from concept development and engineering to procurement, construction management, commissioning, and operational support.

By combining Canadian business standards with a global network of technical specialists, manufacturers, and engineering partners, Montréal Group delivers practical, reliable, and sustainable solutions tailored to each client's objectives.

ENGINEERING & TECHNICAL SERVICES

Montréal Group provides engineering support across multiple disciplines to assist clients in planning, developing, and executing complex infrastructure and industrial projects.

Our engineering capabilities include:

- Engineering Consultancy
- Project Engineering
- Design Review & Verification
- Technical Advisory Services

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Owner's Engineering Support
- Feasibility Studies
- Technical Due Diligence
- Engineering Coordination
- Engineering Documentation
- Technical Compliance Reviews

INFRASTRUCTURE SOLUTIONS

Infrastructure is one of Montréal Group's primary business sectors.

We support public and private organizations in developing resilient infrastructure that meets international engineering standards while addressing long-term operational and sustainability objectives.

Our infrastructure capabilities include:

- Water Transmission Systems
- Pipeline Engineering
- Pipeline Rehabilitation
- Water Distribution Networks
- Pumping Stations

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Utility Infrastructure
- Civil Infrastructure Coordination
- Asset Integrity Support
- Corrosion Control Solutions
- Cathodic Protection Systems

ENERGY & INDUSTRIAL SERVICES

Montréal Group supports energy and industrial clients through engineering coordination, procurement support, and technical project management.

Our services include:

- Oil & Gas Support Services
- Industrial Facilities
- Renewable Energy Projects
- Utility Systems
- Process Infrastructure
- Equipment Procurement Support
- Industrial Engineering Coordination

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Technical Vendor Evaluation

PROJECT DELIVERY & MANAGEMENT

Successful projects require more than engineering—they require structured planning, effective coordination, and disciplined execution.

Montréal Group provides project delivery services that integrate technical expertise with proven management practices to support projects from concept through completion.

Our project delivery services include:

- Project Management
- Construction Management
- Contract Administration
- Procurement Coordination
- Vendor Management
- Cost Monitoring Support
- Schedule Coordination
- Quality Management Support
- Risk Coordination

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Commissioning Support

PROCUREMENT & SUPPLY CHAIN SUPPORT

Montréal Group assists clients in sourcing specialized engineering products and technologies through an international network of manufacturers and suppliers.

Our procurement support includes:

- International Sourcing
- Technical Procurement
- Supplier Identification
- Vendor Qualification Support
- Equipment Evaluation
- Technical Bid Review
- Logistics Coordination
- International Trade & Logistics Support

INFO@MONTREALGROUP.
CA

+1-514-806-4987

STRATEGIC PARTNERSHIPS

One of Montréal Group's greatest strengths is its collaborative business model.

Rather than relying solely on internal resources, we establish strategic partnerships with engineering consultants, technology providers, manufacturers, construction companies, and independent specialists to assemble the most suitable team for each project.

This approach provides flexibility, access to specialized expertise, and the ability to deliver technically sound solutions tailored to each client's requirements.

INTERNATIONAL COLLABORATION

Montréal Group actively promotes collaboration between Canadian expertise and international markets.

Through strategic alliances, the company seeks to facilitate knowledge transfer, technology integration, and long-term partnerships that contribute to sustainable infrastructure development.

Our collaborative approach enables us to support projects involving governments, utilities, industrial organizations, and private-sector clients across diverse geographic regions.

OUR SERVICE PHILOSOPHY

Every project presents unique technical, commercial, and operational challenges.

Montréal Group approaches each assignment with a commitment to:

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- Understanding the client's objectives.
- Delivering practical and cost-effective engineering solutions.
- Applying internationally recognized engineering practices.
- Building trusted, long-term relationships.
- Maintaining the highest standards of quality, integrity, and professionalism.

INFO@MONTREALGROUP.
CA

GLOBAL STRATEGIC PARTNERSHIPS

Montreal Group believes that successful infrastructure projects are delivered through collaboration between experienced engineering organizations, specialized technology providers, equipment manufacturers, and qualified local execution partners.

Our business model is built on establishing strategic alliances with internationally recognized companies whose expertise complements the technical and operational requirements of each project.

Depending on the nature and complexity of a project, Montreal Group seeks to collaborate with organizations specializing in engineering consultancy, infrastructure design, pipeline technologies, asset integrity, cathodic protection, construction management, procurement, inspection, testing, commissioning, and advanced engineering solutions.

By integrating Canadian project management practices with international technical expertise and local implementation capabilities, Montreal Group provides clients with flexible, scalable, and technically sound project delivery solutions.

POTENTIAL INTERNATIONAL COLLABORATION AREAS

Montreal Group actively seeks cooperation with organizations specializing in:

- Engineering Consultancy
- Infrastructure Engineering
- Water Transmission Systems
- Pipeline Rehabilitation
- Cathodic Protection
- Asset Integrity Management
- Inspection & Testing
- Project Management
- Procurement Services
- Digital Engineering
- Construction Management
- Commissioning & Operational Support

WHY MONTRÉAL GROUP?

Canadian Engineering Standards: Applying internationally recognized engineering, governance, quality management, and project delivery practices throughout every stage of the project lifecycle.

Global Network: Access to specialized engineering expertise and technology providers.

Flexible Delivery: Project-specific teams assembled according to client requirements.

Client-Centered: Solutions tailored to operational, commercial, and technical objectives.

Sustainable Growth: Long-term partnerships based on trust and measurable results.

MARKETS WE SERVE

Montreal Group supports clients across a broad range of industries by delivering engineering expertise, project management, procurement support, and strategic project delivery solutions. Our multidisciplinary approach enables us to understand the unique operational, technical, and regulatory requirements of each sector while delivering practical and sustainable engineering outcomes.

- **Government & Public Authorities:** Supporting national, regional, and municipal authorities in the planning, development, and delivery of critical infrastructure through engineering consultancy, project management, technical advisory, and strategic project delivery services.
- **Water Authorities:** Providing engineering support for water transmission, distribution networks, pumping stations, pipeline rehabilitation, cathodic protection systems, and sustainable water infrastructure projects that enhance operational reliability and long-term asset performance.
- **Oil & Gas:** Supporting upstream, midstream, and downstream operations through engineering coordination, procurement support, asset integrity solutions, project management, technical advisory, and infrastructure development services.

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- **Industrial Facilities:** Delivering multidisciplinary engineering, technical coordination, and project delivery services for manufacturing plants, processing facilities, industrial infrastructure, and production environments requiring reliable and efficient engineering solutions.
- **Renewable Energy:** Supporting the development and implementation of renewable energy projects by providing engineering coordination, project management, procurement support, and strategic advisory services that contribute to sustainable energy infrastructure.
- **Municipal Infrastructure:** Partnering with municipalities to develop and modernize essential public infrastructure, including water systems, utility networks, transportation support infrastructure, and community development projects that improve public services and quality of life.
- **Transportation:** Providing engineering support and project coordination for transportation infrastructure, logistics facilities, and associated public works that contribute to regional connectivity, economic development, and sustainable mobility.
- **Ports & Marine Infrastructure:** Supporting the planning, rehabilitation, and modernization of ports, marine terminals, logistics facilities, and associated utility infrastructure through engineering consultancy, technical coordination, and project management services.
- **Mining & Natural Resources:** Providing engineering support, infrastructure development, procurement coordination, and project management solutions for mining operations and natural resource projects while promoting operational efficiency, safety, and long-term asset sustainability.

PROJECT DELIVERY METHODOLOGY

A Structured Approach to Successful Project Delivery

At Montréal Group, every project is managed through a structured and collaborative delivery process designed to minimize risk, maximize efficiency, and ensure successful outcomes.

Our integrated methodology combines engineering excellence, strategic planning, technical coordination, and disciplined project management throughout every phase of the project lifecycle.

1. PROJECT ASSESSMENT

WE BEGIN BY UNDERSTANDING THE CLIENT'S OBJECTIVES, OPERATIONAL REQUIREMENTS, TECHNICAL CONSTRAINTS, PROJECT RISKS, AND LONG-TERM EXPECTATIONS.

DELIVERABLES

- ✓ Project Review
- ✓ SCOPE DEFINITION
- ✓ INITIAL RISK ASSESSMENT
- ✓ TECHNICAL CONSULTATION

2. ENGINEERING & PLANNING

OUR ENGINEERING TEAM DEVELOPS PRACTICAL AND SUSTAINABLE TECHNICAL SOLUTIONS WHILE COORDINATING DESIGN REVIEWS, ENGINEERING STUDIES, TECHNICAL DOCUMENTATION, AND IMPLEMENTATION PLANNING.

DELIVERABLES

- ✓ ENGINEERING STUDIES
- ✓ DESIGN REVIEW
- ✓ TECHNICAL DOCUMENTATION
- ✓ PROJECT PLANNING

3. PROCUREMENT & SUPPLY CHAIN

Montréal Group identifies qualified manufacturers, evaluates suppliers, coordinates procurement activities, and supports logistics planning to ensure timely delivery of materials and equipment.

DELIVERABLES

- ✓ VENDOR EVALUATION
- ✓ TECHNICAL PROCUREMENT

INFO@MONTREALGROUP.
CA

+1-514-806-4987

- ✓ SUPPLY CHAIN COORDINATION
- ✓ LOGISTICS SUPPORT

4. PROJECT EXECUTION

Working alongside qualified construction partners and technical specialists, Montréal Group coordinates project implementation while monitoring quality, schedule, safety, and technical compliance.

DELIVERABLES

- ✓ PROJECT COORDINATION
- ✓ CONSTRUCTION MANAGEMENT
- ✓ TECHNICAL SUPERVISION
- ✓ QUALITY CONTROL PROCUREMENT

5. TESTING & COMMISSIONING

We verify that systems perform in accordance with project specifications through structured testing, inspections, commissioning activities, and performance validation.

DELIVERABLES

- ✓ INSPECTION
- ✓ FUNCTIONAL TESTING
- ✓ COMMISSIONING
- ✓ PERFORMANCE VERIFICATION

6. OPERATIONAL SUPPORT

Our commitment continues beyond project completion by providing technical support, documentation, knowledge transfer, and recommendations that contribute to long-term operational reliability.

DELIVERABLES

- ✓ TECHNICAL DOCUMENTATION
- ✓ TRAINING
- ✓ OPERATIONAL SUPPORT
- ✓ CONTINUOUS IMPROVEMENT

OUR COMMITMENT TO CLIENTS

At Montreal Group, every assignment is guided by a commitment to professionalism, accountability, and technical excellence.

We strive to become a trusted long-term partner by delivering solutions that are practical, sustainable, and aligned with our clients' strategic objectives.

Our commitment is reflected in every stage of project delivery through:

- Professional Integrity
- Technical Excellence
- Transparent Communication
- Quality Assurance
- Safety Leadership
- Sustainable Practices
- Responsible Project Delivery
- Long-Term Partnerships
